Why did you go into law enforcement? To help the people who could not help themselves and make communities safer places to live in and raise families. As I rose thru the ranks in the Chicago Police Department, to help bring more integrity and ethical practice to Policing.

What would you be doing if you weren't in law enforcement? I would probably be running a business. Business owners employ people affording them the ability to support their families.

How many years have you been in law enforcement? 30

What has been your favorite assignment in your law enforcement career and why?

Of course, the Director of the Illinois State Police. This position has challenged me to lead a department charged with keeping the citizens of Illinois safe and secure. Prior to my current position, it would be the Commander of Gang Enforcement for the Chicago Police Department. As Commander of Gang Enforcement, I was able to work closely with community leaders, federal agencies, and other law enforcement professionals to combat gangs. Gangs are the scourge of many neighborhoods and drive much of the violence in communities. What differentiated this assignment from any other position I have held, was that I was tasked with developing the unit from the ground up. Not only did we formulate the mission statement, protocols, and operational model of the unit but I also was lucky enough to hand-pick a team personally, search for facilities and equipment, and develop the organizational structure. The success of the Unit made me feel that my TEAM had accomplished a tremendous goal.

What was your best day on the job? Many. They all have to do with the work my Officers did. Made me proud countless times. Also the day my son told me in front of my Department that he was really proud of me for what I have done during my career. I will never forget that.

Worst day on the job? While it is impossible to decide which was worse, I have been present at the scene of the murders of over 10 Chicago Police Officers. Some were friends, some acquaintances and others strangers but each incident was devastating personally and professionally. This is followed closely by the day I was shot in the line of duty.

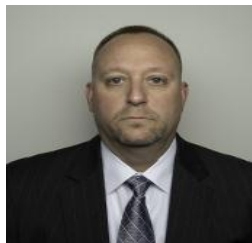

What are you most looking forward to about traveling to Israel, on a professional level?

Terrorism is the most critical issue facing our world today. Therefore from a public safety standpoint it is vital to train extensively, gain as much current intelligence as possible and formulate operational models that can be put into place to prevent attacks and respond to those that occur. I encourage the leaders under my command to seek out training such as this to enhance our ability to combat terrorism. As Director of the Illinois State Police I recognize the incredible value of the training I will be offered in Israel as it's considered the best. I look forward to gaining as much knowledge and experience as possible to share with my colleagues.
